

Newcastle LMG Executive Professional Learning Session

A Brave New World – The Performance and Development Framework in Action

What areas of the PDF do you need to *develop* for 2016 implementation?

THINGS TO CONSIDER...

- What professional learning will executive and/or staff require to enhance aspects of the PDF in our school? Where will we access this?
- How do our accreditation processes align with the PDF?
- How will we survey staff to get their input in relation to changes and/or support needed?
- How will we support casual and temporary staff?
- How will we establish high standards and *consistency* in PDF processes?
- How will we map our professional learning to reflect teacher PDPs and the school's strategic directions?
- How will we tap into expertise in our community of schools?
